

feed your database.

Contact Capture, by Broadlook Technologies is a high speed contact extraction, parsing, and export application. In other words, you don't have to retype or copy and paste your valuable contacts from email, websites, and electronic documents. Ever.

Three steps.

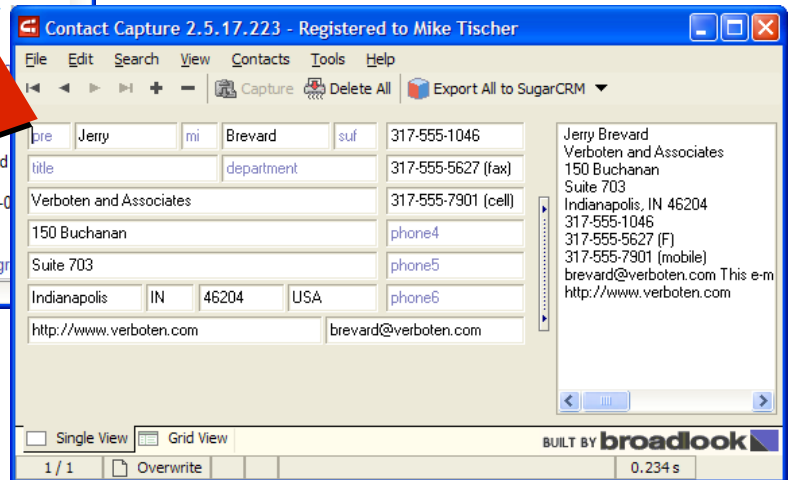

1

Highlight contact information. It can be one record, a hundred, a thousand... whatever.

2

Hold down the Control Key, and tap the "C" key twice. (CC = Contact Capture.)

3

Export to literally hundreds of CRM, ATS, and other common data formats.

Get your **FREE** copy of Contact Capture today!

Take Contact Capture out for a spin. Visit www.datasentials.com/products/specialoffer and enter **Datasentials** into the "Please tell us how you heard about Broadlook: BOX" or into the Questions/Comments: BOX"

While you're there, be sure to check out some of our other Internet research tools.

Take Action. Contact us today to see an online demonstration.
